

The Pet Press

A Quarterly Newsletter for Concerned Pet Owners

Spring 2015

It's Vacation Time!

If you are planning to take your pet with you on vacation here are a few "Traveling Tips":

FIRST: Get a thorough exam by your veterinarian to make sure that your pet has no health problems that would interfere with flying, or would flare-up during the trip.

SECOND: Pack an ample supply of any vitamins or medications that your pet takes routinely. You should also pack a Pet First Aid Kit in case of an emergency.

THIRD: Check with one of the doctors to make sure that there are no diseases prevalent in the locale that you are traveling to. Vaccination or preventive medication may be recommended.

FINALLY: Check out PetHotelsOfAmerica.com the 1-stop travel website for pet owners. Search for the city that you are traveling to.

DON'T WANT THE WORRY?

Leave the 4-legged family members with us! Our pet hotel is doctor supervised and open 7 days a week.

Your dog will benefit from the spacious, large, glass door (bar-less) suites. Additionally, the luxury Suites have individual rooms that offer a private entrance from the kennels and come complete with windows, beds, TV's and 24/7 web cameras. With either choice your dog also benefits from a safe, secure outdoor exercise area to enjoy the fresh air each day. If your dog loves to socialize you can also enroll in our Doggie Day Camp for 2 hours of daily fun and play!

Your cat will enjoy our private, multi-level condominiums in a quiet area separate from the dogs.

TOURS of the facility are available at any time. Ask about

our Frequent Guest Program!

INTRODUCTIONS are in order.

We are proud to welcome **Dr. Kari Bohn**.

Dr. Bohn brings years of experience in companion animal medicine and surgery. She has a B.S. in animal behavior and received her veterinary degree from U.C. Davis. She is also bi-lingual and fluent in Spanish. She joined our staff in 2014 after Dr. Sullos purchased a cat practice and moved to Santa Barbara.

Need a new ID tag for your pet?

If you would like a new one, personally engraved with your pet's name (various sizes available) just stop by. These are available at **no charge**.

www.LHAH.com

Our website is full of useful information, resources and discounts.

Go take a look and take a tour of the hospital (see what it looked like in the beginning), meet your pet's doctor, check out the other pet related links, email the staff, or watch your dog play in doggie day care! You can even request an appointment, refill your pet's medications, order pet supplies and food and have everything shipped FREE (applies to orders under 2 lbs and over \$39).

From the Doctor's Desk

Q: My dog gets motion sickness and my cat throws up hairballs all the time. I have tried over-the-counter medications to no avail. What can I do?

A: **Cerenia**, available as an injection or oral tablet may be the answer. This is one of the most significant medications to control vomiting that has come along in years. It is a prescription medication so call us

and we can determine if it is the right choice for your pet.
